

Sex, Lies, & Handwriting

A special event with handwriting expert, Michelle Dresbold

Looks can be deceiving, but handwriting never lies.

Handwriting analysis is an amazingly accurate tool. It reveals how a writer thinks, feels, and acts. Handwriting analysis is so accurate that the FBI, CIA, and Mosad (Israel's intelligence agency) use it to build detailed psychological profiles of some of the world's most dangerous individuals.

Join handwriting expert Michelle Dresbold, at one of her appearances in Mid-Hudson area libraries.

Michelle is the only civilian to be invited to the United States Secret Service's Advanced Document Examination Training Program and is considered one of the top experts in the nation on handwriting identification, personality profiling and threat analysis. She consults to *private attorneys, police departments, and prosecutors* throughout the United States. Listen to Michelle share her extensive experience helping law enforcement agencies around the country on cases involving kidnapping, arson, forgery, murder, embezzlement, and stalking to take us inside the mysterious world of crossed t's and dotted i's.

You won't want to miss this presentation by "the handwriting doctor." A recent talk for the Allegheny County Detective Bureau in Pittsburgh, PA was standing room only!

Upcoming Appearances – please register at the location of your choice

Tues., October 16th @ 7pm, Staatsburg Library

70 Old Post Road
Staatsburg, NY 12580
Library website: <http://staatsburg.lib.ny.us>
