

# How to return an eBook before the loan period is over

In OverDrive you get to pick your own loan period for eBooks (either 7 or 14 days). At the end of that time the item will expire automatically and will return to the collection automatically. You can return an eBook before the loan period is over to free up space on the library card to check out another item.

In Adobe Digital Editions, when you see the whole eBook you are in 'Reading View'.

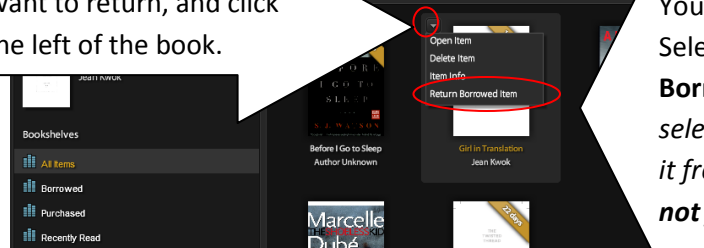

To return an eBook early click on 'Library View'.

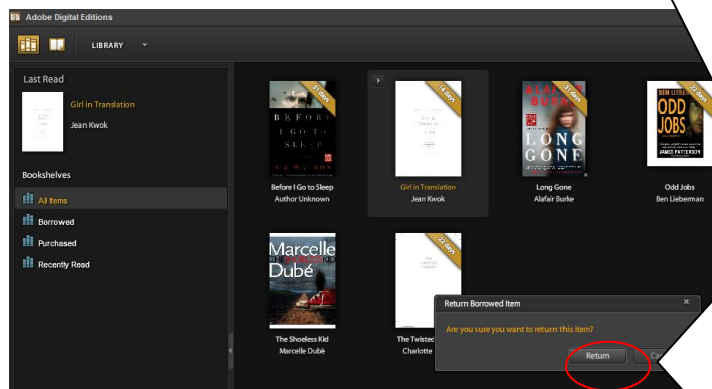

You will see everything you have downloaded.

Select the eBook you want to return, and click on the little arrow to the left of the book.

You will get this dropdown menu. Select the option to 'Return Borrowed Item'. (Note: if you select 'Delete Item' it will remove it from Adobe Digital Editions but *not* from the library card.)

Click here to confirm that you want to 'Return' the item.
