Re: Return of SEAL items

A reminder that ILL items borrowed through SEAL cannot be sent through MHLS delivery as of January 1<sup>st</sup>, due to SENYLRC ending its support of delivery to colleges and BOCES.

This change for 2006 was originally discussed in July at the Director's Association meeting, and has been discussed at several meetings since then.

This involves both items loaned to, and items requested from, the libraries listed below through SEAL ILL. Items to be sent to these locations by your library should be sent by your library through postal mail or UPS. Do **not** send them to MHLS ILL Department.

In order to accommodate items that are part way home during this time, MHLS will mail items back to these locations until January 31. After that time any item for these locations, sent by your library to MHLS, will be returned to your library for you to send directly.
