Immigration:

Data from the U.S. Census Bureau for 2011-2015 indicate that 7,512 people or 4.7% of the population living in this area were "foreign born". Census defines foreign born as anyone who is not a U.S. citizen at birth. This area is located in New York, which, according to the Department of Homeland Security, was home to 141,406 people who were granted Legal Permanent Residence status in 2014. Those LPRs, or "green cards", represent 13.91% of green cards issued in the nation that year.

Families and Households:

The composition of the 39,493 families who reside in the study area is shown in the table below. Families are groups of related people who live together, whereas households refer to the person or group of people living in any one housing unit. Generally, households that do not contain a family are made up of unrelated people living together (eg, roommates) or people living alone. While it is possible for two families to share a household, the difference between the number of households and the number of families in an area shows, approximately, the number of non-family households in a place.

Endnotes:

Calculations presented here were performed by staff at PolicyMap and are based on public and proprietary data sources.

Depending on the type of size of the area selected for this report, the above values capture data for the block groups, tracts, counties, etc, in which at least 50% of their areas are contained. If this report is run for a zip code, some data will be unavailable, as zip code values for some topics are not available.

For custom areas, such as radii, custom regions, school districts, and political districts, Census ACS data was calculated by summing the following component County in 2000: Rensselaer, and the following component Lower State Legislative District in 2011-2015: Assembly District 107.

Any change calculations included in this report reflect PolicyMap's translation of boundary changes from 2000 to 2010. Therefore, they may not match a calculation done using the 2000 and 2011-2015 values shown in the report.

Estimates of tenure, incomes, and housing stock are provided by the ACS for 2011-2015. Data on legal permanent residents is from the Department of Homeland Security, and, for all areas, describes the state in which that area is located. For more information on demographic data in PolicyMap, see the related entry for [Census: Decennial Census and ACS](#) and for more information on immigration data in PolicyMap, see the entry for the [Department of Homeland Security Immigration Yearbook](#) in our Data Directory.

Postal vacancy data in this report is from a resident and business list compiled by Valassis Lists. This data shows a point-in-time snapshot of vacant addresses. For more information on Valassis Lists vacancy data, see our [Data Directory](#).

The source of crime data in the tables presented here is Federal Bureau of Investigation's Uniform Crime Reporting (UCR) Program, which compiles standardized incident reports from local law enforcement agencies in order to produce reliable, uniform, and national crime data. The UCR Program collects data on known offenses and persons arrested by law enforcement agencies. For details on this dataset, see the related entry for [FBI Uniform Crime Reports](#) in the Data Directory. Crime data in this report is not summed or aggregated, but rather listed for each of the complete areas within the study area for which crime is reported.

For the separate Employment and Crime Sections in this report, only locations for which data are available are included in the tables. If the section does not include information, no data was available for any of the locations or component parts of the area you requested for this report.

PolicyMap's [Terms of Use](#) apply to the creation and use of this report.
