

Sustainable Funding Series

Brought to you by

Securing adequate funding your library is one of the primary responsibilities of a library trustee.

MHLS is here to help!

This new series of workshops is designed to meet your board where you are, whether you are working towards annual public votes, improving salaries and benefits for your staff, or ensuring you are putting enough aside to take care of the library building – we've got something for everyone!

All events for trustees count toward your NYS Trustee Education Requirement for 2025.
