

Items That Have Not Circulated in 3 Years

Create Lists Report:

This report excludes items that are not intended to circulate and also items that are new to the collection and may not have had a chance to circulate yet. In order to be sure to eliminate items that have not circulated in some time but that are currently checked out, it adds a Due Date condition.

Change Store Record Type to Item and search Range.

Type: Item

Field: Location

Condition: Starts with

Value A: Your library's location

AND

(Type: Item

Field: Status

Condition: Not equal to

Value A: In library use

OR

Type: Item

Field: iType

Condition: Not equal to

Value A: Non-circulating)

AND

Type: Item

Field: Last Out Date

Condition: Less than

Value A: Date 3 years ago (in this example, we are running the report on Jan. 1, 2021)

AND

Type: Item

Field: Created

Condition: Less than

Value A: Date within last 3 years (in this example, we are excluding material added to the collection in the past year)

Type: Item

Field: Due Date

Condition: Equals

Value A: leave this blank

Low Circulation Weeding Report

This report will allow you to generate a list of items that have not circulated for from 1 to 38 months. You can then further refine to eliminate newer items, last copies, or expensive items. This report will not exclude items that do not circulate.

Go to MAINTENANCE, then under Weeding, select the Low Circulation Weeding

Settings:

Location: Select your library/town

Collection: Leave as ALL if you want entire collection, or narrow to a specific part of collection

Shelf Location: Leave as ALL, or narrow to adult, children, or youth areas of your collection

Call Number Range: Leave as ALL, unless you want to weed a specific part of collection

Physical Format: Leave as ALL, unless you wish to weed certain kinds of materials

Limits: If you wish to find all items that have not circulated within a specific period, choose 1 and the number months an item has not circulated. If interested in more drastic weeding of things that have circulated, though not often, provide your lowest number of acceptable circulations.

Record Creation Date: If you would like exclude items of a certain age, enter a Record Created After date. If you want to exclude new items that may not yet have had a chance to circulate, enter a Record Created Before date. In this example, run January 1, 2021, we are excluding items added to the collection in the past year.

The screenshot displays a collection weeding interface with several filter panels on the left and one panel on the right. Each panel has a dark blue header with a logo and a title, and a light gray body with text and controls.

- RECORD CREATION DATE:**
 - Record Created After:
 - Record Created Before:

You can find the total number of items meeting your criteria in the gray bar on the top of the list. The boxes on the left allow you to further narrow the list by excluding your last copy, the system's last copy, items costing more than a specified amount, or that have a last check-in date before a specified date. You can also ask for a list of a certain number of items recommended for weeding or that will free up a certain amount of shelf space, if your primary goal is to discard items to create more space.
