Total Overdrive Holdings (books, audiobooks, videos)

This report will tell you how many Overdrive titles and copies you have in your Library's Advantage account.

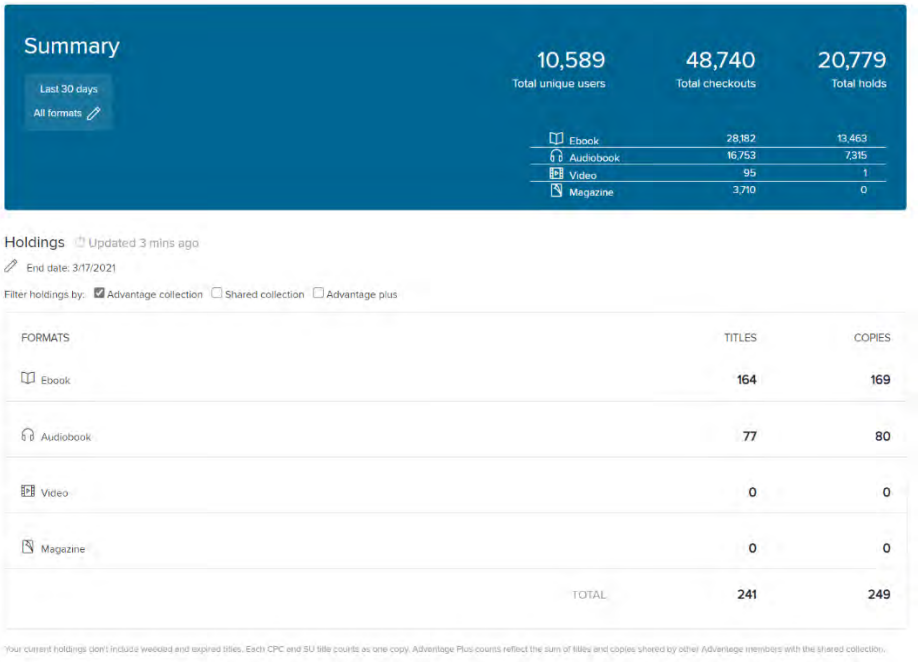

Insights Summary:

Log into Overdrive Marketplace with your Advantage account: https://marketplace.overdrive.com/

Click on the INSIGHTS tab in the blue bar

This will bring you to a Summary page, which contains summary data for the whole MHLS collection. In the middle of the page is the Holdings summary.

- Click the pencil to edit the ending date. In this example, we are looking at holdings as of March 17, 2021.
- To view just your titles, filter holdings by Advantage Collection.

If you have more than one copy of some titles, the numbers in the Titles and Copies columns will differ.

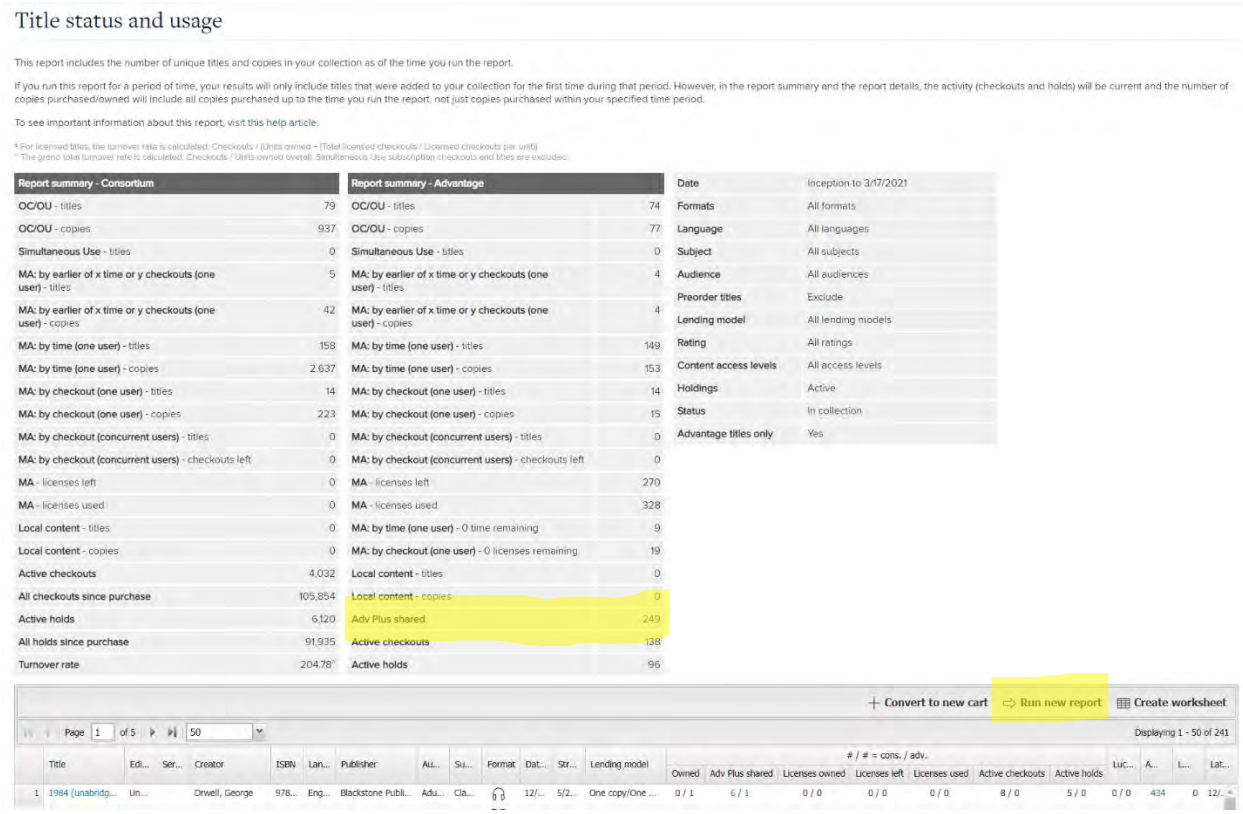

To view the total number of titles and copies available to your patrons from the total shared collection and Advantage plus collections, leave all filter boxes unchecked.

Title Status & Usage Report:

If you want more detail, click on the Title Status & Usage report link in the left sidebar.

The report generated shows all consortium titles. The middle column, Report Summary—Advantage, provides information on your own titles.

Your total holdings appear as Advantage Plus Shared, unless you also have Local Content.

Title status and usage

This report includes the number of unique titles and copies in your collection as of the time you run the report.

If you run this report for a period of time, your results will only include titles that were added to your collection for the first time during that period. However, in the report summary and the report details, the activity (checkouts and holds) will be current and the number of copies purchased/owned will include all copies purchased up to the time you run the report, not just copies purchased within your specified time period.

To see important information about this report, visit this help article.

* For licensed titles, the turnover rate is calculated: Checkouts / (Units owned + (Total licensed checkouts / Licensed checkouts per unit))
** The grand total turnover rate is calculated: Checkouts / Units owned overall. Simultaneous Use subscription checkouts and titles are excluded.
